

Love Dukhanina told about the professional exam for teachers

Math Help

Professional exam, according to the Deputy Chairman of the State Duma Committee on Education and Science of Love Dukhanina, an excellent alternative to certification. She told the Russian newspaper about the advantages of a new form and presented task options.

In the Sverdlovsk, Tyumen, Samara and Vologda regions, within the framework of the experiment on the basis of the valuation centers, the examination and qualifications of teachers can already pass the exam, which will be counted as the passage of certification. After that, the Ministry of Labor makes teachers in the register of qualified professionals. As Duhanin explains, it should help find a higher paying job.

An independent qualification assessment is also a teacher's protection tool. It may be useful if the teacher wants to protest dismissal under the article by the discrepancy of his position, the deputy says.

As the newspaper writes, the tasks are assumed to be united for the whole country to know the techniques, subject and verification of digital skills. Take the exam entrust to independent experts accredited at the federal level. Now everything is on a voluntary basis and at the expense of a teacher or sent it to the institution, but in the future, Dukhanina believes, this experience can be distributed to the whole country to save teachers from collecting certificates and paper for portfolio.

An example of the assignment on the exam. Full version on the link

Recall that the pedsove is a campaign for the fact that the certification of teachers becomes voluntary.
